

Engineer in Charge

Job Title: Engineer in Charge

Status: Full Time

Department: Engineering

Division: Nashville, TN / Columbus, OH or Remote

Purpose:

The purpose of this position is to manage the daily activities of the mobile unit, assist in engineering training, and provide the normal maintenance activities required for a mobile unit to meet client requirements and operate up to LMGH standards.

Position Responsibilities:

- Work with Engineering management to plan, coordinate and direct engineering projects for mobile units and events.
- Supervise Mobile Unit Engineers in the repair and maintenance of mobile unit operations.
- Develop strategies and plans for the Mobile Engineering related to client events.
- Develop operational efficiencies, cost control strategies, and flexibility for client responsiveness.
- Pursue and secure the development of new technologies by manufacturers and vendors working with Engineering team.
- Manage and monitor the mobile unit broadcast engineering operations at remote events when needed.
- Perform regular cleaning and inventory checks for the mobile unit.
- Track and report on equipment and system repair and maintenance status.
- Direct the activities of crew members related to the operation of the mobile unit.
- Follow through on repairs, inventory needs, and updates.
- Provide on-site client service and technical support.
- Ensure the smooth workflow of the maintenance group as it relates to the needs of mobile unit operations.
- Provide technical reports to appropriate departments to ensure equipment needs/issues are met and resolved.
- Coordinate equipment needs by working closely with Operations and Field Shop(s).
- Maintain and file the proper expense or other required reports on a designated basis.
- Work on mobile units in the shop for maintenance, upgrades, etc. as required.
- Other duties as assigned.

Qualifications:

- Technical or B.S./Electronics field or Engineering preferred, however various combinations of education and experience will be considered.
- 5+ years of experience working in television production technology with progressive managerial responsibility.
- Demonstrated knowledge of technology, equipment, facilities and production for major commercial and cable television networks.
- Supervisory experience required; including project coordination, sales support and other related activity.
- Must be able to interface and communicate well with both clients and staff.
- Ability to interface with clients and provide a high level of service and support.
- Excellent communication skills, attention to details and the ability to multi-task in high pressure situations.
- Must be willing and able to lift/push/pull up to 50 lbs., and willing to seek assistance for anything over 50 lbs. (should not seek to do over 50 lbs. without assistance).
- Must be willing and able to travel – travel is required throughout the year.
